HONORS-DESIGNATED COURSES

- The courses on the list below were nominated by the faculty teaching them or by department chairs or program directors.
- They were chosen as honors-designated courses by the LAHP faculty liaison committee because they meet a minimum number of honors course criteria.
- Honors-designated courses will count for your LAHP honors minor.
- You do not need to do any extra work in these courses – you simply need to maintain a GPA sufficient to graduate with LAHP honors.
- These courses will count wherever they fit into your degree plan—in your major, minor or block electives—AND they will count toward the LAHP minor at the same time.

PSYCHOLOGY

PSYC 3331: Cross-Cultural Psychology (Rotating) 08/2012-

This course focuses on how culture affects the thoughts and behavior of individuals and small groups. Specific issues covered vary but may include defining culture, cross-cultural research methods, and identification of cultural differences and cultural universals. Prerequisites: PSYC 1301 and PSYC 2302.

PSYC 3347: Behavior Modification Lloyd 08/2015-

A review of the experimental principles of learning for behavior change. Topics include: applications of classical, operant, and cognitive learning in clinical, educational, family, and socio-cultural settings. Prerequisites: PSYC 1301.

PSYC 3350: Health Psychology (Rotating) 08/2012-

Introduces students to the concepts, theory, and research that comprise health psychology. Emphasis is placed on understanding the relations among psychological and behavioral factors, and psychological well-being, wellness, and disease. Prerequisites: PSYC 3201 and PSYC 3101.

PSYC 4309: History and Systems of Psychology Whitworth, Castañeda 08/2012-

A review of the main systems and schools of psychology since 1879. The main assumptions of structuralism, functionalism, psychoanalysis, behaviorism, gestalt psychology, physiological psychology, cognitive psychology, information theory, and current trends are comparatively examined. Prerequisite: PSYC 1301.
An in-depth examination of specific mental disorders. Topics include prevalence, manifestation, assessment, course, and treatment of these disorders. Emphasis is on both empirical research on the covered disorders and exposure to firsthand account of persons with the disorders.

Prerequisites: PSYC 1301 and PSYC 2312.

Language and Cognition (3-0) An investigation of language as a cognitive capacity. Topics will include perception, processing, acquisition, and mental representation of language. May be taken as LING 4316. Prerequisite: PSYC 1301 or LING 2320.

An overview of current models and empirical research on cognitive processes in human decision-making and judgment under risk or uncertainty. Prerequisites: PSYC 1301 and PSYC 1303 each with a grade of “C” or better.
